EDUCATION

Sardar Vallabhbhai National Institute of Technology
Integrated M.Sc. Physics

Nov. 2022 – May 2027

WORK EXPERIENCE

Startrit InfraTech Pvt. Ltd.
Frontend Developer Intern

Jul. 2026 – Aug. 2026
Chennai, India

- Resolved a multi-system **translation conflict** across the React/TypeScript frontend of a production DeepTech hiring platform, fixing broken localization for both static UI and dynamically generated content.
- Debugged and fixed a **CSS variable scoping issue** causing an invisible Sign Up button on a live production route, restoring a broken conversion path.
- Redesigned the **email notification template system** and built **Playwright-based** automated visual preview generation for QA.
- Shipped features and fixes in an **Agile Git/GitHub workflow** – pull requests, code review, and production releases on a live platform.

PROJECTS

RankPilot AI | *Node.js, Express.js, MongoDB, Playwright, Gemini API, Browserbase* — *GitHub* — *Live*

- Built a full-stack **AI-powered SEO platform** that tracks keyword rankings, competitor positions, and ranking changes across Google search results.
- Developed automated **SERP scraping** using Playwright and Browserbase to collect real-time ranking and competitor data.
- Integrated **Google Gemini API** to analyze SEO performance and generate actionable recommendations from tracked website data.
- Implemented secure **JWT authentication**, keyword tracking, rank refresh, and RESTful APIs using Node.js and Express.js.

CineRate | *React.js, Node.js, Express.js, MongoDB, OMDb API* — *GitHub* — *Live*

- Built a full-stack **movie rating and review platform** with user authentication, movie search, ratings, and reviews.
- Developed **RESTful APIs** using Node.js and Express.js with MongoDB for users, movies, ratings, and review data.
- Integrated the **OMDb API** to search and retrieve movie details while storing movie data in MongoDB to reduce repeated external API requests.
- Implemented secure **JWT authentication** with HTTP-only cookies and protected routes for authenticated movie reviews and ratings.

Real Time Chat Api | *Node.js, Express.js, MongoDB, Cloudinary* — *GitHub* — *Live*

- Developed a full-stack **real-time chat application** with secure authentication, user profiles, and persistent conversations.
- Built and integrated **RESTful APIs** using Node.js and Express.js with MongoDB for user and chat data management.
- Implemented secure **JWT and bcrypt authentication** with protected routes and HTTP-only cookie-based sessions.
- Integrated **Cloudinary** for profile image uploads and connected the React frontend with backend APIs for seamless data flow.

TECHNICAL SKILLS

Languages:	C++, JavaScript, HTML, CSS
Frontend:	React.js, Tailwind CSS, Vite, React Router
Backend:	Node.js, Express.js, REST APIs, JWT, bcrypt
Databases:	MongoDB, MongoDB Atlas, Mongoose
AI & Automation:	Gemini API, Playwright, Browserbase
Cloud & Tools:	Git, GitHub, Cloudinary, AWS Translate, Postman

ACHIEVEMENTS

- Flipkart GRiD:** Advanced to the third round of the Flipkart GRiD competition after clearing multiple selection stages.
